PRESS RELEASE:

CALL OF SUPPORT FOR DANDELION

2/4/25

OCCUPIED SEMINOLE, MASCOGO, TIMUCUA, & MICCOSUKEE LANDS (Palatka, FL) - We are sending out this call to bring attention to the case of and support behind our Pasifika, Indigitransfem, relative, Dandelion. Since March of 2023, she has been kept in a cage, isolated, attacked and brutalized in the putnam kkkounty jail. The occupiers have charged Dandelion with alleged first degree murder & arson of a known sex trafficker.

SHE IS INNOCENT! FREE DANDELION!

On Friday, Feb 7th, at 1:30 pm EST, Dandelion will be having a "competency hearing," (rule 916.12). According to the occupier who calls itself the "state of Florida," a competency hearing is an ableist approach to determining a defendant's ability to proceed with trial. If deemed incompetent to proceed, Dandelion will be sent to a state run, psychiatric prison. Here she will only be further brutalized and medicated against her will by the monster that is the coalescion of the medical & prison industrial complexes.

We, her loved ones & relatives on the outside, demand the charges against her be dropped by state attorney R.J. Larizza Failing this, we demand that she be deemed competent to stand trial. We know that she is competent based on her astute reactions to a brutal and violent world. We can see from her communications, a fervently clear analysis of our times and the situation she finds herself in. We know that our relative is competent enough to recognize the violence of cisheteropatriarchal white supremacy and settler colonialism, and she is damn competent enough to defend herself. She has asked for support from independent media outlets in amplifying her story to expose the injustices she faces. Raising public awareness is crucial to ensuring that she receives fair legal treatment and access to necessary support. Those who wish to support Dandelion are encouraged to share her story, reach out to trusted media contacts, and demand accountability from the Putnam County Jail, the state attorney, the courts, and the broader legal system responsible for making the decisions that affect Dandelion's safety and wellbeing.

CALL TO ACTION

The state attorney R. J. Larizzaa is the only one who can drop the charges against her before court date of February 7th, we need folks to call the SA's office from 9AM-5PM February 5-7th. Ask to speak to his assistant and firmly ask them to drop the charges and demand that, on Friday, she be found competent to stand trial. Make sure to use her legal dead name & case # when calling. Call from a google voice or alternate phone number or use *67. Her life & freedom depend on our support.

Sample script: "Hello, I am calling today on behalf of Mathew Temael who is a beloved member of my community. I call on R.J. Larizza to drop the charges against her for case number 2023-00896-CF-54. Mathew belongs with her community, not in a psych facility, not in a jail, not in a prison. On Friday, she is facing a competency hearing and I know her to be competent, and demand that she be granted the right to proceed with her case. She continues to contribute to her beloved community through her care, attention, and insights, even while incarcerated. I am overwhelmingly confident that she does not belong in a psychiatric facility and ask that she be heard for the clear and empathetic person that she continues to be."

Dead Name: Mathew Temael #2023-00896-cf-54

~* "a deathrattle is the last rasping sounds of life that come out of a soon-to-be deceased person's throat, but it kind of sounds like a macabre baby toy, doesnt it?" -DANDELION ON DEATH ROW

this is the g0km0n5t3r, formely known as dandy. deep roots have spread and grown into a weed, half-uprooted and chemically treated so the Man can have a yard of 3½-inch long healthy green grass to throw his barbecues and baby showers. the remaining decomposing roots that feed the toxic fungal network still festering in the soil, lay in wait. the gurl cok monster, howling from the bowels of the putnam kkkounty jail whispers with klomengungil, a war cry to all those inhuMans enslaved, to all those walking UNdead, to all those made into the most terrible, wicked, monstrous beings lurking underneath the cozy, quiet beds of your masters...to all those dwelling in the dark, dank, diabolical 3rd & & 4th Worlds...

as yall know, ive been kidnapped and charged with monstrosity of the 1st degree, the premeditated murder and live incineration of a yt settler/sex tourist/child rapist. now, the president insists on giving me and all migrants charged with capital offences, the death sentence [see trumps executive order 14164 - Restoring The Death Penalty & ...something something Public Safety].

but yall know thats not why we're *really* here in this position we find ourselves today, right?

im here today because, as haunani kay trask said, "we are not amerikkkan", and we're here at this moment today because since even before they set foot on our shores, they believed with all their hearts that we are monsters...and still do to this day. VP catlady vance says something like..."we never been a nation of immigrants, but a nation of settlers."

so from my Land and Sea of belau to putnam kkkounty, florida, to atlanta, to dallas, to asheville, to all of new afrika, and to the red nations cross turtle island, to palestine, to haiti, to venezuela, to taiwan, to auteroa, to west paupua...to EVERYONE

in the 3rd and 4th worlds EVERYWHERE...this is a war cry to SCALP THESE SETTLER A\$\$ BITCH3\$, TO SHAKE UR A\$\$3\$ AND UR DEATHRATTLES, AND TO GET ME AND EVERYONE MARKED FOR DEAD IN AMERIKKA TFO OF HERE NOW PLZ!

 \sim *

dont let them send us to asylums or a boxes at all anymore!

~~*~*~*~*~*~*~*~*~*~*~*

let us be the monsters they've made us to be, xcaped from our cages & coffins. rising up to bring about the land of the living dead. they believe we are the bugs, the glitches, the viruses, the errors, the heathens & witches & goblins & ghouls & gargoyles from otherworldly/ungodly realms that will freeze, sieze, and crash the system. little is it known, theyve started their last crusade. their last witch hunt. the portal is open, and no magic word or sacred presidential seal can unreel whats wound up to be a grave...grave mistake.

~~*~*~*~*~*~*~*~*****

start w getting the most marginalized Black trans*women & marginalized genders what they need to survive, then the rest of the multiply marginalized folx in your community everything they need to survive, & keep checking in with them how far we can stretch things without snapping or leaving folx in harms way as disposable. then, get hard and organized and get rdy cuz next up is the survival sx working hoez & survivors of captive sx abuse, especially the youth, everyone in youth facilities, then the mad, mentally ill, neurodiverse, disabled folx warehoused in inpatient/outpatient facilities for the rest of their lives, then EVERYONE from the 4th world, then EVERYONE from the 3rd world.

this is the living nightmare they've made of US. an amerikkkan fever dream.

~~*~*~*~*~*~*~*~*~*~**

this squat, the one next door, the park cross the street, the whole block, this side of town, this county, this city, this district, this st8, this region, this natn, this continent, then the next! get EVERYONE EVERYTHING need to survive so the most marginalized among us can fully participate in their capacities to strategize in long-term like this.

we were never going to get "human" rights. not when they never even saw us as living, loving, beings. not even after they gave us their thanksgivings, or said merry christmas to us, or when they saw our young ones at play with one another. they could never see a world with us in it, and so now they move to cast us back to the underworld as simple flesh. flesh. working, sweating, toiling, fkable, killable, fungible flesh. thats what we are to the huMan beings with huMan rights. flesh less than Man, in fact, flesh-inhuMan.

 $*_{\sim}$

Man's Reason...his brains...that pathologizes us with UNsound minds with draptomania, hystreria, transvestism, as Mad, Mentally Ill, Neurodiverse, Disabled...

~*

Man's Sovereignty...his souls...that judges us as UNgodly, UNcivilized, irredeemable heathens, savages, criminals, as Black, Red, Brown, Yellow animals with demonic spirits...

*~

Man's Body-Politic...his political bodies, industries, & institutions that class us as Hands to labor, Backs to break, Holes to fk, Knees to buckle, Feet to strain...born to work and die working, born to bear burdens and die bearing them, born to reproduce as refuse and die as refuse, born to kneel and die as slaves, born to run and run and run and die hunted, caged, cut into pieces...

the huMan world has truly marked us for deth. they've starved us, sickened us, we lay dying...now, as inhuMan flesh, we turn to eat the huMan's brainz, devour the huMan's soulz, suck dry the bl0d from the huMan's body to survive.

~~*~*~*~*~*~*~*~*****

dont let anyone get ICE'd into concentration camps OR into the new mandatory death sentence for migrants convicted of capital crimes. folx thats a bit older remember what happened when they used 'homeland security' & 'the wr on trror' to develop the most technologically advanced security state in the world. unless u were under a rock during the last 5 years, yall saw how they used the 2020 slave reblions as a call for 'accountability' & a 'law & order' supposedly to make everything normal again by putting their bootheels aginst the necks of more Black & brown poor folx, migrant folx, houseless folx, queer folx, and folx seeking reproductive justice. this is using 'ice' & 'the migrnt crisis' to expand that power to nab anyone in plain view off the street! check and see how they're bringing back vagrancy laws w a twist like when NYC mayor eric adams made it cool to kidnap anyone who LOOKS mentally ill. it is NOT inevitable or natural that this should be happening...it doesnt HAVE to happen or be like this. make them pay for every inch.

arent yall ready for this? lets get ready!

- -for developing more effective strategies that can carry on regional support networks that MATERIALLY center our Black trans* relatives and multiply marginalized folx, see 'move like mychorrizae' & 'Black radical ecology' from the afrofuturist abolitionists of the americas, 'library economy' from andrewism [all on youtube], & 'anarkata: a statement' from anonymous [on the anark library dot com]...
- -for developing more effective commitments to the safety, full participation, and self-determination of our Black trans* relatives and multiply marginlized folx and for ridding movement spaces of opportunists, clout chasers, abusers, TERFs, xeno-hphobia, fasc shit...see Nsambu Za Suekama's 'the left cannot just denounce cults/abuse...' & 'femme queen, warrior queen: beyond representation, toward self-determination' and (g)ender fugitive's 'for those seeking or in flight: Black transfeminist nihlism' [on redvoice news dot com/medium dot com/patreon dot com]
- -for developing more effective miltnt tactics that seek to center those at the bottom & on the inside, start with Lorenzo Komboa & Jonina Ervin's 'Black Autonomy Podcast' & 'Black A & the rev', then check put the zapatistas & their takeover, the yng lrds & their hospital takeover, the Blk lib Rme & ashanti alston/kuwasi balagoon, the american indian mvt & leonard peltier/standng rck/wounded knee 1973/alcatraz.

think like this: whats working/what isnt working for EVERYONE in autonomous zones in portland & minneapolis, migrant struggle in dallas, miami, cop city in atlanta, mutual aid post hurricane in asheville, EVERYWHERE etc...whats at work w EVERYONE in haiti w kenyan forces?, nigeria w/#ENDSARS?, sudan, yemen, palestine, taiwan against us & china?, auteroa, west papua, venezuela after their election?, etc. what strategies are at play FOR and AGAINST us EVERYWHERE? get miltnt, get on principles that work from the bottom-up, inside-out.
